### **Consent to / Approval of the Pre-Warrant Qualification Course (PWQC)**

Dear Mr. Chairman, dear Dr. Camilleri,  
dear Board Members,

with reference to the latest Evaluation Report concerning the Pre-Warrant Qualification Course of the Malta College of Arts, Science and Technology (MCAST) and in accordance with the concluding assessment of the experts, we hereby formally confirm ASIIN's consent (approval) to the PWQC as a means of qualifying MCAST graduates of the "old" Bachelor (hons) degree programmes in Electrical and Mechanical Engineering for the Engineering Warrant procedure.

ASIIN trusts that MCAST will provide the adapted documents (course specification, study regulation, list of possible topics for engineering project) in due time after the approval of the EPB. It also expects that the results of the PWQC as well as the performance of graduates who have undergone the course will be subject to a review in 12 months after the commencement of the course.

Best regards

Dr. Iring Wasser  
Managing Director
